Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Hershey, Jr. et al. (US 4,010,299).

Hershey, Jr. et al. disclose folding a sheet running transversely to a feeding direction and two subsequent parallel folds; see figures 1-3.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over DeLise, Jr. (US 5,667,210).

DeLise, Jr. describe a process for producing multi page leaflets by performing at least one parallel fold (plow folder) then multiple cross folds (with a buckle folder) and then deflecting table and blade folder; see figure 6. The examiner takes OFFICIAL NOTICE that it would have been obvious to one of ordinary skill in the art to reverse the essential working parts of a device ie. switch the cross folder with the parallel folder.

5. Claims 1-8 are alternatively rejected under 35 U.S.C. 103(a) as being unpatentable over Vijuk et al. (US 6,506,275) in view of Bellanca (US 5,655,866).

Vijuk et al. likewise provide a process as noted above with at least one parallel fold operation then to cross/buckle folders however disclose alternative substitutes for the two folding units (parallel/plow and cross/transverse/buckle) and specifically "numerous other embodiments and types of folding units could be utilized"; see column 10, lines 35-45.

Bellanca recognizes initially folding transverse and subsequent multiple parallel folds in the production of multiple folded sheets; see figure 1. Regarding claim 4, Bellanca teaches perforating along fold lines. Therefore it would have been obvious to one of ordinary skill in the art to modify Vijuk et al. by the various teachings of Bellanca in order to produce multiple folded sheet products.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher R Harmon whose telephone number is 5712724461. The examiner can normally be reached on Monday-Thursday from 8-6.
